

**National Association of**

**Special Education Teachers**

On behalf of the National Association of Special Education Teachers (NASSET), we want to again congratulate Learning Prep School for having been selected as a NASSET School of Excellence. For the 2009-2010 there were only 56 schools nationwide that achieved this distinction. Learning Prep School can take great pride in achieving the highest honor a private special education school can achieve through our professional association.

The recognition as a NASSET School of Excellence is bestowed on private special education schools that have met rigorous professional criteria and have demonstrated truly exceptional dedication, commitment and achievement in the field of special education.

We are pleased to be able to present the enclosed certificate of recognition to Learning Prep School a NASSET School of Excellence.

Once again, congratulations to Learning Prep School as being selected as a NASSET School of Excellence.

Sincerely,

*Dr. Roger Purasgala & Dr. George Guckens*
